**Join us for orientation training to learn more about  
volunteering at the Pines Of Peace!**

**The Pines of Peace has volunteering opportunities in fund raising; caring for our yard (i.e. 'the Green Team'); gardening; cleaning, as well as resident care giving. The first night will begin with an overview of hospice care and how the Pines of Peace operates. The second night we will learn more about caring for our residents.**

**Anyone in the community is welcome to come to either just the first night, or both nights. The training does not obligate anyone but is meant to give you an idea about what volunteering can look like and if you might be interested in exploring further opportunities at the Pines. The two nights of training will give you a good overview to get you started.**
